Mt. Crested Butte, CO 81225

To Whom It May Concern,

I can honestly and with confidence say that Linda and I are glad to have met Adam Zatorski and the King Systems team. Prior to working with King Systems I'd been searching for our previous integrator, and being unable to find him, I had my doubts about whether I'd find anyone around the Crested Butte area who could service and support our home. Those doubts have been relieved.

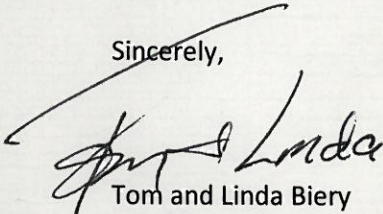

We've recently gone thru a technology upgrade at our both our Crested Butte and Houston homes and the experience has been great. However, we had a challenge to face in both locations. Our equipment issues were of significance and our systems were not easy to operate, yet. We'd never been presented an option to standardize between the two locations and we were looking to make things simpler.

Both homes now operate in a similar fashion and it's actually easy to use our technology. We can enjoy listening to music throughout the home. Watching movies is fun again. I have the peace of mind that both systems are being monitored for faults and the King Systems team is able to proactively respond to many issues before I find them 'on accident.' As a result I feel good about the technology in our homes.

Adam was a pleasure to deal with every step of the way. He has the experience to communicate complex concepts in a way that makes it easy to understand. He took our vision and turned it into an incredible working product. I don't think this could have been possible without him. Sonny Burgos was there for each and every aspect of the installation and his professionalism and courtesy were world class. I'd be glad to work with him again.

With full confidence I'd be glad to recommend Adam, Sonny and the King Systems team.

Sincerely,

Tom and Linda Biery
